airworthiness. In complying with this paragraph, consideration may be given to the inspections performed on an aircraft maintained in accordance with a continuous airworthiness maintenance program under Part 121 of this chapter or a progressive inspection program under Part 91 of this chapter, within the 30 days prior to the date the application is made for an export certificate of airworthiness.

- (d) New engines and propellers must conform to the type design and must be in a condition for safe operation.
- (e) Used engines and propellers which are not being exported as part of a certificated aircraft must have been newly overhauled.
- (f) The special requirements of the importing country must have been met.
- (g) A product need not meet a requirement specified in paragraphs (a) through (f) of this section, as applicable, if acceptable to the importing country and the importing country indicates that acceptability in accordance with §21.327(e)(4) of this part.

[Amdt. 21–2, 30 FR 8465, July 2, 1965, as amended by Amdt. 21–8, 31 FR 2421, Feb. 5, 1966; Amdt. 21–9, 31 FR 3336, Mar. 3, 1966; Amdt. 21–48, 44 FR 15650, Mar. 15, 1979; Amdt. 21–79, 66 FR 21066, Apr. 27, 2001]

## §21.331 Issue of airworthiness approval tags for Class II products.

- (a) An applicant is entitled to an export airworthiness approval tag for Class II products if that applicant shows, except as provided in paragraph (b) of this section, that—
- (1) The products are new or have been newly overhauled and conform to the approved design data;
- (2) The products are in a condition for safe operation;
- (3) The products are identified with at least the manufacturer's name, part number, model designation (when applicable), and serial number or equivalent; and
- (4) The products meet the special requirements of the importing country.
- (b) A product need not meet a requirement specified in paragraph (a) of this section if acceptable to the importing country and the importing country indicates that acceptability in

accordance with §21.327(e)(4) of this part.

[Amdt. 21–2, 30 FR 8465, July 2, 1965, as amended by Amdt. 21–48, 44 FR 15650, Mar. 15, 19791

## §21.333 Issue of export airworthiness approval tags for Class III products.

- (a) An applicant is entitled to an export airworthiness approval tag for Class III products if that applicant shows, except as provided in paragraph (b) of this section, that—
- (1) The products conform to the approved design data applicable to the Class I or Class II product of which they are a part;
- (2) The products are in a condition for safe operation; and
- (3) The products comply with the special requirements of the importing country.
- (b) A product need not meet a requirement specified in paragraph (a) of this section if acceptable to the importing country and the importing country indicates that acceptability in accordance with §21.327(e)(4) of this part.

[Amdt. 21–2, 30 FR 8465, July 2, 1965, as amended by Amdt. 21–48, 44 FR 15650, Mar. 15, 1979]

## § 21.335 Responsibilities of exporters.

Each exporter receiving an export airworthiness approval for a product shall—

- (a) Forward to the air authority of the importing country all documents and information necessary for the proper operation of the products being exported, e.g., Flight Manuals, Maintenance Manuals, Service Bulletins, and assembly instructions, and such other material as is stipulated in the special requirements of the importing country. The documents, information, and material may be forwarded by any means consistent with the special requirements of the importing country;
- (b) Forward the manufacturer's assembly instructions and an FAA-approved flight test checkoff form to the air authority of the importing country when unassembled aircraft are being exported. These instructions must be in sufficient detail to permit whatever rigging, alignment, and ground testing is necessary to ensure that the aircraft
